## DermaFile

You may recall that *Microdermabrasion* sands and suctions dead skin cells which also helps to uproot clogged pores around the nose mouth and chin

The purpose of *DermaFile* is very similar to microdermabrasion, but without the suction.

A DermaFile is a skin polishing and resurfacing tool made of stainless steel and finely crushed cosmetic diamonds. The file lightly polishes skin by removing the top layer

of dead skin cells. What is left behind is velvety smooth, fresh, rejuvenated skin.

DermaFile is great for improving skin texture, reducing the appearance of fine lines and wrinkles, dullness, acne-scarring, and enlarged pores. It also helps fade age spots, sun damage, and smooth out rough and dry skin. A direct effect of DermaFile is an increase in collagen production.

There is no pain. DermaFile treatments actually feel relaxing and invigorating at the same time! DermaFile has no negative side effects, and the results are immediate!

DermaFile treatments can be given to those with mature, rosacea, broken capillaries or sensitive skin.

### DermaFile by Kat

DermaFile can be added to [any facial treatment](#) for \$25.00.

**Fathers Day Special - 60.00 -**  
Brick and Mortar Facial targets the mortar (hard skin cells) and digests the proteins and lipids to release the bricks (layers of dead skin cells) to reveal fresh healthy skin.

### Online Booking Update

When booking from my website you will now be asked to input a credit card number.

This holds the appointment, but will not charge the card. Nothing is charged to your credit card unless the appointment has been no showed (no one shows for the appointment) or changes to the appointment within the 24 hour cancellation policy. Thank you for your understanding!

*Aesthetics by Kat is located inside Bella Salon. Call (702) 325-1940 to schedule an appointment, or visit my website: <https://www.aestheticsbykat.com/>*
