

## OxiFresh Trio

Did you know OxiFresh Trio is an innovative facial treatment for skin exfoliation that improves skin oxygen levels and infusion of valuable ingredients to enrich the skin!

The simultaneous skin exfoliation along with skin oxygenation optimizes the absorption of the valuable components in the nutrient-rich gels into the skin.

## Sunscreen, now?

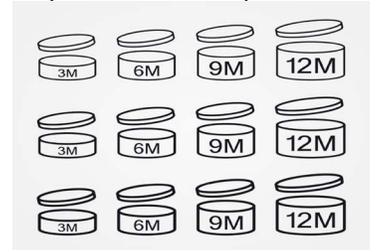

Yes!! Even on cloudy days. According to the Skin Cancer Foundation, clouds block only about 20% of the UV rays, so you're still getting about 80% of them and with that all of the unwanted skin aging damage caused by sun exposure. Sunscreen needs to be applied even when you're staying indoors all day - UV rays can still pass through windows and penetrate your skin. It has also been proven that cellphones and computer screens emit HEV (High Energy Visible Light) that can damage and cause early skin aging. So, yes you should ALWAYS wear sunscreen!!

Summer is coming, maybe not soon enough, but it is a coming! Now is the time to get your skin looking marvelous! I am going to assume, yep I am assuming, that you are working out, so be good to your body and keep up the hydration. It's not just important for your body, its also really important for your skin. Flushing all those toxins we built up during the holidays!

## Product Tip

Have you paid attention to this little symbol that is printed on the paging of your products?? This symbol is on every makeup and skincare product we purchase and is often ignored. The symbol

will tell you the products shelf life after it has been opened. Meaning how long exactly you have to

use the product before it goes bad. We all love to buy products, but we have to be aware of what we have at home and for how long its been opened. You don't want to use expired products on your skin and cause irritations!

### Online Booking Update

When booking from my website you will now be asked to input a credit card number. This holds the appointment, but will not charge the card. Nothing is charged to your credit card unless the appointment has been no showed (no one shows for the appointment) or changes to the appointment within the 24 hour cancellation policy. Thank you for your understanding!
